- I release the school district from any reliability claim as a result of the administration of this medication or procedure as directed.

_____ Date _____ Parent's Signature _____ Address and City _____ Telephone #

Teachers will not be applying sunscreen to students. This form is to allow your student to have sunscreen at school. It is also your opportunity to let the school know if your child is allergic to sunscreen. Please educate your child that there are people are allergic to the chemicals in some sunscreens and it should not be shared. The teachers will prompt kids to put on their sun screen when students will be going outside for an extended period after lunch. Please put sunscreen on your student before they come to school in the morning.

*****If your student is allergic to sunscreen or certain kinds please let us know at this time also.**
